

Restructuring of DISC GmbH successfully completed. DISC and DAX continue together.

BINGEN, GERMANY (October 8, 2009) – DAX Archiving Solutions (DAX), and DISC GmbH, both established suppliers of digital archiving solutions, are pleased to announce the successful completion of DISC's restructuring.

Together DAX and DISC creates one of the world's largest, most innovative and diversified digital archiving specialists. The restructuring will strengthen DISC's ability to develop innovative solutions to exceed the demanding needs of long term archiving.

"DISC has established a reputation for innovative and highly reliable products over the last 20 years and this restructuring allows that tradition to continue", said David Barrett-Hague Head of Sales and Marketing at DISC, "We are in a very exciting market and it is a great time to partner with DAX" he added.

DISC and DAX will continue to operate as independent sister companies belonging to a single group of companies. The production and development activities of DISC's jukebox products will remain in Bingen, Germany. Overall the group aims to create further growth as well as consolidate its market leader position in the optical storage market.

"DISC is complementary to the DAX Group as it shares the same vision to secure and preserve customers' digital data" said Kees Machielsen, Managing Director of DAX.
